**COSMO KLEIN**  
*& the Campers*

---

2026/27

Musical excellence meets electrifying performance and timeless grooves.

Rooted in the soul music of the 1960s and '70s and inspired by legends such as Prince, James Brown, and Marvin Gaye, COSMO KLEIN & THE CAMPERS recorded their debut album *Soul Fiction* in a converted camper van. The rolling studio welcomed no fewer than 24 guest musicians, and with its release, the band firmly established itself at the forefront of the modern Nu-Funk movement. Featured guests include U.S. guitar virtuoso and Vulfpeck co-founder Cory Wong, legendary drummer Brian Frasier-Moore (P!nk, Justin Timberlake, Madonna), and some of Germany's finest musicians, including Benny Greb, Claus Fischer, Noah Fürbringer, Peter Weniger, Hanno Busch, and many more.

In September 2025, the band released the single *Higher*, offering the first glimpse of their upcoming album *Jumping Bird*.

With *Jumping Bird*, COSMO KLEIN & THE CAMPERS present their most focused and uncompromising work to date—a Nu-Funk-driven road trip filled with groove, soul, and musical passion.

Recorded at Beattime Studios and noisy Rooms Berlin, the album combines the energy of a seasoned live band with meticulous songwriting and Cosmo's unmistakable voice. Blending Soul, Jazz, and Funk, Cosmo Klein (vocals & drums), Stefan Fuhr (bass), Ruben Grosse (guitar), Florian Menzel (trumpet & flugelhorn), Marc Doffey (saxophone), and Tini Thomson (baritone saxophone) create a sound that effortlessly bridges timeless tradition and contemporary flair.

With more than 200,000 monthly listeners on Spotify, international chart success in countries including Portugal and Brazil, and tours across the globe, Cosmo Klein is one of the very few German soul artists with a truly international profile. His career is built on a clear foundation: original music, exceptional musicianship, outstanding live performances, and uncompromising artistic independence.

As a singer, multi-instrumentalist, songwriter, and producer for artists including Sasha and Nico Santos, as well as numerous television and film productions, Cosmo has long been recognized for his remarkable musical versatility. On *Jumping Bird*, he takes things one step further: alongside writing, producing, and singing, he plays drums on a CAMPERS album for the very first time, shaping the record's unmistakable groove from behind the kit.

The album is released through Cosmo's independent label COSMOPOLYTIX—free from compromise and driven by a clear belief in the enduring value of music. The exclusive physical release arrived on May 29, 2026, and is initially available only through COSMOPOLYTIX and at the band's live performances.

At the same time, the band embarks on a unique digital journey. Beginning in May 2026, a new single from *Jumping Bird* is released every month, culminating in the complete digital album on December 18, 2026.

Tracks such as *Can't Get Enough* showcase the band's infectious Funk energy, while *Grand Pa* and *A Little Bit More* reveal a more intimate and emotional side. With *Who Came to Party*, Cosmo pays tribute to Funk pioneer George Clinton and the enduring legacy of P-Funk.

Throughout 2026 and 2027, COSMO KLEIN & THE CAMPERS bring this music to the stage in an explosive live show where musical excellence, world-class entertainment, and pure joy of performance come together.

And the journey is only just beginning. Another studio album is already scheduled for release in 2027. Thanks to the collective's highly creative workflow, the band has developed a way of working that allows them to release new music on a regular basis—without ever compromising on quality, sound, or artistic integrity.

COSMO KLEIN & THE CAMPERS are just getting started.

*Jumping Bird* is Funk with soul, conviction, and a heartbeat—performed by a band that confidently follows its own path.
